Brownell's Cooking Range.
THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.
Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.
One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My Eau Divine Odo Venus and Nymph Soap, composed of an eastern botanical discovery of surprising efficacy for rendering the skin soft and fair, as well as imparting a delicate rosy hue to the complexion. As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Haue's Nymph Soap, or Eau Divine de Venus, may be said to exert an almost magical influence. Composed for the most part of oriental balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medically, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expelling impurities from the surface, allays every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will charge a most brilliant complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.

DIGESTION.—The Philadelphia Bulletin says there is no country on the globe furnishes as large a number of dyspeptics in proportion to the population, as the United States. The causes for this are two-fold:—first, the character of the food we eat; second, the little time allowed for digestion. In reference to the food we eat, it may briefly be stated that we consume too much animal food, and too small a proportion of vegetable, at least in our cities; but, we quote below, some excellent remarks from the Hartford Courier, which will render unnecessary anything we could say. In reference to the little time allowed for digestion, we need only state the fact that one hour or more should, after every meal be yielded to comparative quiet and repose, because if either the brain or body, but especially the former, is tasked during the earlier process of digestion, the vital energy which should go to the organs of the stomach, is drawn off towards the brain or muscles, and dyspepsia, in time, superinduced. The majority of Americans however, in defiance of this fact, swallow their dinner without proper mastication, and return immediately to their vocations.

The following is the article from the Hartford Courier:
Wheat is the most nutritious of all substances, except oil; containing ninety-five parts of nutriment, to five of waste matter. Dry peas, nuts and barley, are nearly as nutritious as wheat. Garden vegetables stand the lowest on the list, inasmuch as they contain, when fresh a large portion of water. Only one-fourth of a cucumber is capable of being converted into nutriment. The nutritious parts of the different meats vary from one-fifth to one-eighth of the whole. Veal is the most nutritious; mutton next; then chicken; then beef; last, pork. Fruits vary between two and three-tenths of nutritious matter, and the order is as follows, the most nutritious being placed first: Plums, grapes, apricots, cherries, peaches, gooseberries, apples, strawberries, melons. Milk contains less than one-tenth of nutritious matter, as it is mainly composed of water.

Of all the articles of food, boiled rice is digested in the shortest time—an hour. As it also contains eight-tenths of nutritious matter, it is a valuable substance of diet. Tripe and pig's feet (strange to tell) are digested almost as rapidly. Apples, if sweet and ripe, are next in order. Venison is digested almost as soon as apples. Roasted potatoes are digested in half the time required by the same vegetables boiled, which occupy three hours and a half—more than beef or mutton. Bread occupies three hours and a quarter. Stewed oysters and boiled eggs are digested in three hours and a half—an hour more than is required by the same articles raw. Turkey and goose are converted in two hours and a half sooner than chicken. Roasted veal, pork, and salted beef occupy five hours and a half—the longest of all articles of food.

Advice.—If you wish to make a sober man a drunkard, give him a wife who will scold him every time he goes home.—Exchange Paper.

We firmly believe the above, for in our opinion there is not a more detestable person than a scolding wife. We think, judging from observation, that there is nothing more calculated to aggravate a man; because it is an evil with which he cannot contend, without making matters worse; and yet it is a canker-worm gnawing at his heart and destroying all his peace. It is unmanly to complain, and still more so to retaliate, while at the same time he feels that endurance in the cause is not a virtue. It makes his wife hateful and his home repulsive, and we can hardly blame him for flying from it, and seeking the means of rendering himself insensible alike to scolding an everything else.

But if scolding can have such an influence, what may we not expect from a fond eye, a sweet voice, and a warm caress, when our lords come home wearied, and often heart-sick from the cares of the day? How like a heavenly being must a wife appear then, as she hovers around, lighting up his Eden with the sunbeams of her smile. How it must nerve his heart and strengthen his

hands to do anything, brave anything for her!—and though dark clouds of trouble may lower o'er his path, let her gentle look but shine upon it, and lo! the rainbow of hope is glowing above them.

We think if wives would oftener pursue this course, they would not only keep the innocent from the mebriating bowl, but even woo the guilty from its fascinating brim.

INTERESTING SIGHT.—To see young ladies promenading the streets dressed in the top of fashion, while their mothers are taking in washing to support them.

Roake's Iodine Linament.

A SAFE and certain cure for Rheumatism, either chronic or inflammatory—Paralysis, or loss of the use of the limbs, contractions of cords and muscles, and gout, matters not of how long standing; sprains, bruises, tumors, hard swellings, and enlarged joints, yield to a few applications of this Linament. THE DAILY NEWS.

Newport:

THURSDAY, SEPTEMBER 2, 1847.

Wm. C. JACKSON, 97-THAMES ST.

FROM CALIFORNIA.—Capt. Drake of the ship *Modesto*, has arrived at St. Louis, having left Oregon on the 6th May. As that when he left peace and tranquillity reigned throughout the land, and the prospects of the season were very favorable.

The British Pacific Squadron had not been heard from for eight months. Capt. Drake fell in with a party at Fort Union, which had left California on the 4th of May, who stated that every thing was going satisfactorily when they left; that Gen. Fremont was exercising supreme command, and that several ships of the squadron were at San Francisco.

The Oregon emigrants were progressing daily. The Norwegians had eighteen months' provisions. The Californians were opposed to settling in that country, and it was reported that they would resort to force to prevent it.

FROM CALIFORNIA.—Gen. Fremont and suite have arrived at St. Louis on the 18th June. Col. Fremont left about the same time, he was under an arrest, and was to follow in a few days to St. Louis.

General Kearney arrived at Fort Leavenworth on the 22d instant, making the short space of 95 days, coming from South Pass. He had many obstacles to encounter, snow on the mountains being deep. The Indians were quiet, and California all was peaceable and in prosperous condition. Colonel Mason was in command. All the emigrants accompanied by Major Cook and Judge Bry were met, and were going on finely.

The American Squadron was off the coast of California, consisting of the Commodore Biddle; frigate Commodore Dale; store-ship Lexington, &c., and was to leave in a few days with General Kearney. The rest of the troops were divided into parties and stationed at different posts throughout the country.

General Kearney was accompanied by several discharged Mormon volunteers, in his train.

There has been an arrival at New Orleans from the Brazos, with news to the effect that nothing of importance has transpired.

There is a rumor of an insurrection in California. A plot, having for its object the massacre of the inhabitants, and the establishment of a republic, was fortunately discovered, but not a number of persons had been murdered in several villages. All the white and colored people, men, women and children, fled to Tepic. The rumor is, however, unfounded.

Theaters have laid aside their political differences to unite in putting down the insurrection.

WHEAT AND GRAIN.—The following are the prices at New York, of flour and grain, at the opening of navigation this season on the 22d of August:

Wheat, barrels,	2,289,303.
Wheat, bushels,	2,454,205.
Barley,	4,256,488.
Barley,	303,261.

The excess this season, compared with the receipts of the corresponding period last year, is equal to 1,158,787 barrels of flour.

FOR CALIFORNIA.—U. S. transport ship *Albatross* will be despatched for California on the 12th of September. Letters will be received at the office of the Quartermaster U. S. Army, No. 60 Greenwich street, New York, until her day of sailing.

HURRICANE IN INDIANA.—A hurricane passed over Kingstown in Indiana, doing much damage to the country, destroying human life and property to a great extent. Welch & Delavan's Circus was destroyed by the tornado. Levi North, a well known equestrian, was killed, and several soldiers of the company injured.

The Albany Journal has been sued for libel by the immigrant passenger agent.

"CITY" ITEMS.

ARRIVAL OF THE STEAMSHIP NEW YORK.

The French steamship New York, Capt. Carlier, 16 days from Cherbourg, for New York, put into this harbor last night for a supply of coal. She has on board 116 passengers.

The Atlantic steamers not being in the habit of making Newport one of their stopping places, as they are Nantucket, we were not on the look out for the New York, and are consequently unable, as yet, to give any news brought by her.

We were not a little amused a day or two since while inspecting the interior of the Clarke street Church, by a little incident which occurred there. It will be recollected that we stated some days since, that the walls and ceilings of the house were being painted in fresco. Now an individual who has never seen any of this style of painting, may be easily deceived by it, and made to believe that there is space where there really is none. In the rear of the pulpit in this church is a painted recess, and nothing but a painting, but a gentleman who never had seen any fresco painting before, supposed that it was a real recess, and actually attempted to step into it, and was not aware of his mistake till he fetched up against the wall. This speaks well for the manner in which the work is executed.

Providence was thronged yesterday by thousands of people who had assembled from all parts of the State to attend Commencement.

We heard of nothing which occurred to mar the enjoyment of any one, and it was pronounced by those who knew, to be the best Commencement they had enjoyed for five years.

The students who took part in the exercises did themselves great credit.

HOME JOURNAL.—Morris & Willis' Home Journal of New York, is the nearest printed paper we have on our exchange list, and the fact of its being *Morris & Willis'* paper ought to be recommended enough for its contents—they know what the reading public want, and they spare no pains to gratify their wants.

The New York papers have been harping on the departure of the Chinese Junk ever since she has been there, and they now say she will positively start for Boston on Saturday.

Wonder if she will put in our harbor on her way to "wood and water."

The Hon. Louis McLane of Maryland and the Hon. Mahlon Dickerson, of New York arrived in Town yesterday, and have taken rooms at the Bellevue House.

CONCERT.—The American Vocalists, let it be borne in mind, give their Concert at Armory Hall this evening.

STONINGTON RAILROAD.—A new arrangement of the Stonington railroad accommodation train, was commenced yesterday when a morning and evening train was established each way, leaving Providence at 8-1-4 o'clock A. M., and 4 P. M.; leaving Stonington at 6-1-2 A. M. and 3-1-2 P. M.

It appears from the returns which have been received, that Thurston, the democratic candidate for Representative from the Western District, is elected by about 100 majority.

For the amusement of spectators, we suppose, the Chinese men on board the Junk, and the captain, had a regular knock down and drag out on Monday. Seven of the Celestials were taken care of by the police.

PROFESSOR McCLELLAN.—The Philadelphia North American, of Saturday, says: "We understand that Rev. Prof. McClellan, of Dickinson College, has been elected principal of the Genesee Wesleyan Seminary, Lima, New York. This flourishing institution numbers, according to the last catalogue, 417 students."

Major General Patterson has left Philadelphia to assume the command of his division in Mexico, of which he was deprived by the disbanding of volunteers after the battle of Cerro Gordo. His aids, Col. Abernethy and Lieut. Williams, accompany him.

A lad sixteen years old was sent to the house of Correction in Boston last week as a common drunkard, on complaint of his father.

It has been calculated that the man who shaves every day cuts off nearly half a foot of beard per annum, and that a man eighty years of age will have removed in his time 27 feet of hair from his own countenance! The Philadelphia "Spirit" remarks that—"The only distinctive marks of humanity have been set down by philosophers as cooking and shaving. 'Mud,' say they, 'is an animal that cooks and shaves.' Very good. But it follows, then, that he who eats his meat rare and uses no razor, voluntarily degrades himself to a level with the beasts, for it is by no means certain that some beasts do not reason quite as much as many human beings. 'more hair, less brains,' says the Chinese proverb; and there is some show of sense in it besides humor."

ELOPEMENT EXTRAORDINARY.—Last week, John Ward, Jr., of Halifax, (Me.) eloped from his father's residence with a buxom young widow, the house-keeper, to whom he was married immediately after at the parish church. The gay Lothario is in his 51st year, and the blooming bride about half his age. On the news being communicated to his venerable parent, he said: "It's all right; but if I'd been a year or two younger, he shouldn't have had her; I'd beat before him."

THE BACHELOR.—A man who passes through life without marrying is like a fair mansion left by the builder unfinished. The half that is completed runs to decay from neglect, or becomes at best but a sorry tenement, wanting the addition of that which makes the whole useful. Your bachelor is only the moiety of a man, sort of garnish for a dish, or a prologue to a play, a bow without the fiddle.

California would be a great place for Alchemists if they had any money there. The price of making a coat is \$25! and five dollars for pants. A Blacksmith can earn from \$6 to \$19 a day, if he'll take it out in what he can get.

Peter G. Stuyvesant, who died the other day, in New York, left estates valued at two millions of dollars, and personal property worth two hundred thousand more! His wealth had been fairly divided, it would have made a thousand families comfortable!

Two citizens were lately comparing notes upon the merits of their respective spouses. "Alone," said one, "would be a very good wife, if she were not so talkative." "Talk at eve!" replied the other, "why you are a happy fellow; my wife talks morning noon and night!"

A cider drinker at Glastonbury has had a gallon of cider allowed him a-day during forty years. He thus had two hundred and forty hogsheads of cider "to his cheek."

A TEAR.—How much is expressed by a single tear? When dropped over sorrow and distress, it is more eloquent than words. It tells of sympathizing feelings and a kinder heart. It is a living sentence, springing from the affections, without guile or dissimulation—reaching to the soul of the sad afflicted.

SIMILES.—Modesty to the female character, is like saltpetre to beef, imparting a blush while it preserves its purity.

The above is only equalled by Ollapod, who says:

"Female lips are but the glowing gateways of so much beef and cabbage."

AGE OF SWINE.—The age of the hog in most parts of Hindostan, is from 15 to 17 years. In Ohio it seldom reaches beyond 3 years. It is clear as oil that hogs should emigrate to the east.

TOUR WITH A GUILLOTINE.—Maltese papers recently stated that "a Greek vessel having on board a guillotine, was making the tour of the Islands, stopping wherever there were criminals to be executed."

A tornado passed over Schenectady on Saturday afternoon, destroying a great deal of property. Union College was injured to the extent of \$3000 or \$4000.

A most tremendous storm of rain, thunder and lightning, took place in Mantanzas on the 11th inst. It was not accompanied with wind, but was so tremendous that one editor thought the world was coming to an end.

We understand that the Grease-spot Man has left some of his genuine article for sale at the Druggist and Grocery stores. It may be found at the fruit store of Wm. Dean. Be sure to call for Kidder's Erasive Compound.

SAND'S SARSAPARILLA.—The following is an extract from a letter received from Mrs. Boyan, who had been afflicted for several years with scrofula, ulcers, dyspepsia, &c., and recently with an affection of the throat and chest—

Baileysburg, Va. Dec. 13, 1845.
Messrs. Sands—Before I commenced using your Sarsaparilla, my sufferings were past expression. My throat was completely ulcerated, I had a severe cough, and there were frequently weeks together that I could not speak above a whisper; besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla for a short time my health improved, and my throat is now well. I am as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected by your Sarsaparilla.

Your friend,
LOUISA R. BRVAN.
Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton St. N. Y.
Sold also by Dr. R. R. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, Providence, and by Druggists generally throughout the United States.
Price \$1 per bottle. Six bottles for \$5.

JONES' SOAP.
Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan; Why, 'twill repulse the love of any man! These freckles, too, you know they'd quickly fly If Jones' Soap you'd use; come once—do try—It costs but fifty cents, and I am told It's worth, aye, doubly worth, its weight in gold. Persons who have had no faith in it, have been astounded at the wonderful effect of Jones'—that is, the genuine Jones' Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

Dr. Banning's Patent Body Lotion, For Weakness of the Body.
The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's Lotion, and be put off with nothing else.

A new and splendid assortment of Gold and Plated Lockets at Manchester's Daguerreotype Rooms, at the head of Beach road. Now is the time to make a good selection—delays are dangerous.

WARREN, August 22, 1846.
Dr. Boardman—Dear Sir:—Now being about leaving for home, I am able to give you a favorable account of the Lotion which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unwilling for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Lotion, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the splitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

Sept. 4. S. W. HILL.
Radway's Chinese Medicated Soap is superior to all imported French, Berlin, and other Soaps. Tan, sunburn, pimples, blotches, pustules, ring-worm, salt rheum, erysipelas, rash, scurvy, the bites and stings of mosquitoes, rough and discolored skin, pale and sickly complexion all yields to the curative propensities and beneficial influence of this valuable and delicious emollient. In fact, be the complexion ever so disfigured, or the skin discolored or diseased, Radway's truly excellent medicated soap never fails in rendering the skin soft, smooth, fair, sweet, clear and healthy. Many persons suffer great annoyance during the summer season from the troublesome insects mosquitoes. These persons, subject to those annoyances, by applying Radway's soap to such parts of the caudles as is bitten, it will instantly alleviate the pain, subdue the irritation and instantly remove every vestige of inflammation. For general toilet soap it is unequalled, it proves an agreeable perfume, and is entirely free from all poisonous admixtures, or irritating ingredients. It is much cheaper than any other medicated soap, and is acknowledged by thousands to be superior to all others ever offered to the public. No Chinese Medicated Soap is genuine unless signed, R. G. Radway. Be sure to ask for Radway's Soap, and take no other. Sold for 12 1/2 cents per cake, by Dr. R. J. Taylor.

JULIUS HAUEL'S celebrated PERSIAN, or
CHINESE POWDER, which is unequalled
for the nursery, for restoring, beautifying, preserv-
ing the complexion, rendering the skin delicately
white, smooth and soft, preventing cutaneous
eruptions, chapping and obviating too copious per-
spiration. Travellers and residents in warm cli-
mates will highly appreciate this grateful appen-
dage to the toilet.

How much the beauty of a Sylph-like form is en-
hanced by a clear and brilliant complexion, is only
known to those who are suffering from freckles,
pimples, blotches, morphea, and other disfig-
uring eruptions of the skin, occasioned by the use of powder
decorated with sweet names, such as Lilly White,
Pearl Powder, &c., too often made of deleterious
substances. To those we would say make a trial
of this Cosmetics, and your complexion will be ren-
dered beautifully clear, fair and blooming. For

Ladies are Cautioned

AGAINST using Common Prepared Chalk.—
They are not aware how frightfully injurious
it is to the skin! how coarse, how rough, how sal-
low, yellow, and unhealthy the skin appears after
using prepared chalk! Besides it is injurious, con-
taining a large quantity of lead!

We have prepared a beautiful vegetable article,
which we call JONES' SPANISH LILY
WHITE. It is perfectly innocent, being purified
of all deleterious qualities; and it imparts to the
skin a natural, healthy, alabaster, clear, living
white; at the same time acting as a cosmetic on
the complexion, and softening the skin.
J. Jones, Chemist of Mas-
achusetts says: "After analyzing Jones' Span-
ish Lily White, I find it possesses the most beau-
tiful and natural, and at the same time innocent
white I ever saw. I certainly can conscientiously
recommend its use to all whose skin requires
beautifying."

The American Improved Hygienic Vegetable
Medicine.
SAFE, CHEAP AND EFFECTIVE.—
This medicine makes no pretensions to miracu-
lous powers, the raising of the dead, or to im-
mense and astounding sales daily and hourly, af-
ter the most approved method of the times; but
bases all its claims upon plain common sense prin-
ciples, as a simple and to nature in restoring the
human system to its proper tone and action, when
by carelessness or unavoidable circumstances it has
become deranged or debilitated, and asks simply a
faithful trial as a test of its curative properties.
During the last twenty years it has worked its
way into extensive use, mostly upon its own merits,
by recommendation from individual to individual,
not having been advertised for more than twelve
years (within the past few months—save occa-
sionally in a journal of which the present propi-
etor is Editor. The increasing demand, however,
has measurably compelled greater attention to its
business, and agencies are now being established
throughout the country.

A faithful trial of a half dollar or dollar pack-
age is almost certain to secure use in every family
where it is introduced, where medicine is needed.
The undersigned has used it in his own family for
more than fifteen years—has knowledge of its ap-
proved use in many others, (for periods varying
from months to fifteen or sixteen years,) as their
only medicine, and knows it to be valuable in most
of the complaints incident to the human system.
But a long or extravagant commendation is not
designed or needed here. Ten thousand mere as-
sertions in its favor will not make it valuable, or
satisfy reasonable persons without a trial; for the
proof, after all, must lie in the use of it. Try it,
then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this
article before the public, at the request of his nu-
merous customers, among whom are physicians
and citizens of the first respectability, who have
adopted its use in their families, and wish others to
participate in its advantages.

The Hyperion is composed of vegetable ingredi-
ents, the secret of compounding and blending which
is known solely to the subscriber. It is an arti-
cle in which a cleansing and purifying wash is
beautifully blended with a most delicate, silky and
glossy moisture never before attained, yet free of
animal grease or essential oils. It clears the pores
of the skin, causes a healthy action in the blood
vessels, nerves, &c., which feed the hair, thereby
preventing baldness and grey hair.

It entirely frees the skin from Scurf, Dandruff,
and other cutaneous diseases, secures the hair to
curl, and changes the hardest hair into the most
soft, glossy, and healthy state, also imparts to it a
darker color, and the free use of it, both on the
skin and hair, in a most healthy and luxuriant
state until the latest period of life.

Ladies will find the Hyperion a great addition to
their toilet, both on account of its delicate and agree-
able perfume, and the great facilities it affords in
dressing the hair, which, when moist with the fluid,
can be dressed in any required form, so as to
preserve its place, whether plain or in curls.
When used on children's heads, it lays the founda-
tion of a good head of hair.

DR. BANNING'S PATENT LACE!
An immediate Relief to Incipient Consumption, the
Bronchitis of Public Speakers, Palpitation
of the heart, Dyspepsia, Spinal Weak-
ness, Piles, Protrusion, and Diseases
of Women, without Medicines.

THIS instrument has been examined by Drs.
Mott, Rodgers, Francis, and Grison of New
York, the faculty of Pittsburgh, Hartford, New
Haven and Middletown, and has obtained for itself
their favorable testimony. The following will
show what kind of testimony might be produced
in many cases:
Middletown, June, 25th, 1813.

Dr. Boardman,
Sir—In answer to your inquiry respecting my
case, I will merely say, that I have been sick since
I strayed my breast and loins in May, 1810, from
that time continued to grow worse, when in the
fall of '11, I abandoned business, and have not
done anything since. I suppose from all I could
learn about my case—frequently raising blood,
coughing very hard and expectorating profusely,
deriving no benefit from my physicians, and all
medicines recommended to me, that my case was
hopeless. Last winter my brother told me he had
heard a good account of Dr. Banning's Lace in
such cases, and was anxious that I should try it;
accordingly I procured one from you, and since I
began to wear it, my breathing, which was very
short and laborious, has become easy and natural;
the pain and fluttering or palpitation of the heart
has subsided; cough and expectoration greatly
lessened, my limbs which were exceedingly pain-
ful have become useful, so that I can walk com-
fortably. I am able to shave myself with comfort,
which for many years I have not been able to do.
The piles, which have troubled me for nine years,
are nearly eradicated. I work some in the garden,
and am able to ride 10 miles at once with pleasure
and benefit. Yours, &c. Wm. RANNEY.

Dr. G. M. Boardman,
Middletown, June 25, 1843.

Dr. Boardman,
Dear Sir—In answer to your inquiries re-
specting the effect of Dr. Banning's Lace in the
case of my wife, I will state that for twenty years
past, she has been afflicted with a complication of
complaints to which females are subject. She has
tried all the physicians and all the medicines re-
commended for such complaints, without regard to
expense, and found only temporary relief. Her
most distressing complaints, palpitation of the
heart, oppression and a sense of great weight at
the pit of the stomach, prolapse of the womb, &c.,
were believed after wearing the lace two hours, and
she has continued to improve daily. With this
view of the case I cannot use language strong
enough to convey my approval of the instrument.
aug. 29th.

PROVIDENCE, Feb. 26, 1816.

Doctor Boardman,—Dear Sir—I now take my
pen to inform you that my wife's health has im-
proved very fast for the last two weeks from wear-
ing one of your Laces. She has been out of health
about two years and has worn a different Support-
er from yours, which had only two pads. She re-
ceived some benefit from that—but it would not
produce a cure. But now I can say with pleasure
that she is as spry as any of the young girls in the
neighborhood. She can now run up and down
stairs as fast as I can, and I feel so well pleased
with it that I hardly know how or what to write.
But one thing I do now, that she has been under
the care of seven Doctors in one year—and wear-
ing your lace two weeks has done more for her
in a very short time. I want to write more, but I
have no time. I am truly, your friend and well
wisher.

Doctor Boardman, proprietor of Bannings' cele-
brated Patent Body Brace, for this state, has taken
rooms at No. 8, Broadstreet, where he may be con-
sulted, free of charge. He is enabled to treat suc-
cessfully, cases of Rheumatism, Neuralgia, Head-
aches, Deafness, loss of Voice, Bronchitis, Weak-
ness and curvatures of the spine, and chronic dis-
eases generally. He is enabled to refer to num-
erous cases in Providence, and this town. aug 28

MR. ABRAHAM VANDERBEEK, of 38 Av- enue D., New York, certifies that his head was entirely bald on the top, and by the use of two 3s. bottles of Jones' Coral Hair Restorative, he has a good crop of hair, and will soon have it long and thick.

Mr. William Jackson, of 80 Liberty street, Pitts-
burgh, Pa., certifies: On the 31 of February,
1817, that Mr. Thomas Jackson's head, on the top,
was entirely bald for 15 years, and that by
using two 3s. bottles of Jones' Coral Hair Restor-
ative, the hair is growing fast and thick, and will
soon be entirely restored.

Gray Heads! Gray Heads! Read—I herby
certify that my hair was turning gray, and that
since I have used Jones' Coral Hair Restorative,
it has entirely ceased falling—is growing fast, and
has a fine dark look. Before I used Jones' Coral
Hair Restorative, I combed out handfuls of hair
daily. WM. TOMPKINS, 92 King-st., N. Y.

Mr. Power, a grocer of Fulton-st., had his hair
choked up with dandruff, and Jones' Hair Restor-
ative entirely cured it.

Do you want to dress, beautify, and make your
hair soft and fine? Read—I, Henry E. Child,
late broker on board the steamboat South Ameri-
ca, do certify that Jones' Coral Hair Restorative
is the best article I ever used for dressing, soft-
ening, cleansing and keeping the hair a long time
in order; all my customers preferred it to any-
thing else.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been
found highly beneficial and of great use to la-
dies who have been afflicted with superfluous hair,
principally when its growth has been confined to
the upper lip and side of the face, giving a mascu-
line turn to the whole features. When used with
proper care, and according to the directions, it will
be found to be a great addition to the toilet, as the
use of any sharp instrument is entirely avoided,
and the hair is removed in five or ten minutes af-
ter its application.

This composition is infallible, and warranted to
remove superfluous hair. After numerous trials, I
have received certificates of success which cannot
be contested. For sale, wholesale and retail, at

CHEMICAL RESULT—A WONDER.

MY celebrated VEGETABLE LIQUID HAIR
DYE, to enable persons to dye instantaneously
their hair, without the least inconvenience.—
For changing red or gray Hair, Whiskers, Eye-
brows, &c., to a Brown, Black, or Chestnut Color.
The slightest evil consequences need not be feared
from its use—it is altogether harmless. This com-
position is the only one sanctioned by the science
of Chemistry, to dye, in an indelible manner, the
various gradations of colors, without danger or in-
convenience, and has justified the liberal patro-
nage and unlimited confidence of the public. It
black is required, ask for box marked N, if brown,
ask marked B.

MOTHER'S RELIEF.

IT is now about ten years since this medicine has
been introduced to the public, and it stands un-
rivalled in its effects, bearing the test of the severe
scrutiny of all classes, both friendly and unfriendly.
It is but for one purpose—for the use of Mothers
who have to pass through a sea of affliction in
giving birth to mankind, not to be described. It
is to you we make an appeal. It is for your es-
pecial and general good that you should make use
of one bottle of the MOTHER'S RELIEF before
confinement. Then you can approach the par-
turient chamber without feeling as if you were go-
ing to the chamber of death. You may rest as-
sured it will still all terrible and nervous affection.
It soothes and shields from irritation and by
its peculiar properties it destroys the cause of her-
morrhage or inflammation that so often attend and
follow the hour of parturition. It causes sweet
and natural rest, and at last facilitates the birth,
so that Mothers have not to pass through such
excruciating pain and distress. The Mother's Re-
lief may be depended upon in all cases of threat-
ening abortion where it is possible to be prevented
in cases of Spasms, &c., causing frequent alarm,
from two to three doses will give immediate relief.

As the subject is one that cannot with propriety
be fully discussed in this public manner, we invite
all who feel interested to call on our agents (most
of the respectable Druggists in the United States,) or
on the manufacturer, and they will be furnished
with a pamphlet in which they will find all the
facts to form a correct opinion of its merits, and
also the opinions of many physicians of eminence,
and of persons who have become acquainted with
its beneficial effects.

CAUTION TO PURCHASERS.—Ask for Har-
monick's Mother's Relief. None is genuine un-
less our signatures are found within the wreath
of the directions that is pasted on the bottle, signed
with our own hand, and over the neck of the
bottle is a facsimile of our own hand writing also.
By attending to the above directions, no one need
be imposed upon. All orders will be promptly
attended to. DR. G. A. BARTHOLOMEW,

Miracle.

ON the 4th of August, in the year 1843, a sin-
gular scene occurred in the Royal Scientific In-
stitution of France. The aged, white headed
President, his head bare, his arms outstretched, his
face radiant with smiles, (for science was triumph-
ant,) and his voice with gratulatory tones, deliv-
ered the following report:

"We are astounded at this singular preparation.
Where indeed will science stop? Here we have
a preparation made in the form of a beautiful piece
of soap, which we know by actual practice, to
cure every cutaneous eruption, every disfigure-
ment of, and even discolored skin! Where will
its magic and singular power cease? The Negro,
the Creole, the Yellow Race of the East, and the
Red Man of the far West, are alike under the in-
fluence of its extraordinary powers of clearing yellow
or discolored skin, and making it white and
beautiful, and of changing the color of dark, or
black, or brown skin." (Here several persons
were brought forward by the President, who had
used it, in proof of his assertion.)

There are probably few persons of intelligence,
who, after reading the above, will doubt the quali-
ties of JONES' ITALIAN CHEMICAL SOAP,
in curing Pimples, Itch, Salt Rheum, Scoury,
Erysipelas, Sore Heads, Old Sores, Beard and
Barber's Itch, Chapped and Tender Flesh, Freck-
les, Tan, Sunburn, and changing dark sunburn or
yellow skin to a pure, clear white, as smooth and
soft as an Infant's, and in fact every kind of erup-
tion and disfigurement. Read these certificates:

[From the N. O. Sentinel, Oct., 1841.]
One of our subscribers, Mr. H. Leonard, in-
forms us that he has been cured of old, scaly Salt
Rheum, of eighteen years standing, on his head,
fingers and hands, by a cake of an article much
advertised lately—we speak of Jones' Italian
Chemical Soap. He also informs us that he has
tried its effects on his female slave Rose, much
marked with sun spots, and he found in two
weeks her skin much clearer and whiter.

James Edmon, a painter in Jersey City, was
cured of carbuncles and pimples, which he was
afflicted with for many years, by part of a cake of
Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for
Jones' Italian Chemical Soap; and perhaps, as
many who have been cheated with counterfeits,
will be too much discouraged to try the genuine,
we say to such, try this once—you will not regret
it; but always see that the name of T. JONES
is on the wrapper. For sale in Newport by

READER! READER!

If you are afflicted with Bronchitis, Asthma, Ob-
stinate or common Coughs and Colds, Spitting
of Blood, Discharge of the Lungs, Whoop-
ing cough, croup, difficulty of breath-
ing, sore throat, hoarseness, first
stages of consumption, and
all other Pulmonary
or Lung Com-
plaints, try

DOCT. EMANUEL'S BALSMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable
and balsamic, and are the invention of an emi-
nent physician, from whom the proprietor has pur-
chased the recipe. It is certainly worth its weight
in gold, but is put at a price to be within the reach
of rich and poor.

Names and residences of persons residing in the
city of New York, who have been cured or benefi-
ted by Dr. Emanuel's Balsamic Cough and Lung
Jelly, when it was prepared in another form:
Mr. Hiram Ament, 113 William-st., N. Y., had
for some time, a dreadful pain in his side and chest,
with a hacking cough, and shortness or difficulty
of breath. He used part of a bottle of Dr. Emanuel's
Balsamic Lung and Cough Jelly, which per-
fectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very
obstinate cough and cold. She tried every other
remedy in vain, and Dr. Emanuel's Balsamic
Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful
hearts of these respectable citizens of New York,
appeal to your hearts and understandings, if you
are afflicted with any pulmonary complaint,
cough, cold, &c.

Mr. L. W. Conklin, 162 Eldridge-st.
Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange country, April 19th, 1816.

Dr. EMANUEL,
Dear Sir—You may perhaps think my state-
ment almost incredible. My reason for fear-
ing so is the fact of your never recommending your
Jelly for the cure of confirmed consumption, but
only in its primary or first stages. I have every
reason to believe that I was in its last stage; my
physician told me so; my friends told me so; as
well did my symptoms, for they were truly alarm-
ing; and I felt fully convinced, that unless relief
was obtained, I must soon be consigned to the
narrow confines of the silent grave. But by the
timely use of your remedy, I still live, and again
enjoy my former good health. I had, indeed, dear
sir, all the alarming symptoms you speak of as
forming consumption in its worst stage; but by
the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain
statement, let me conjure you to pause, ere it is too
late; try this Balsamic Lung Jelly—try it. I have
put its price to you as low as I can afford; if you
use it, and succeed in curing yourself, I shall have
the gratification of having rescued another from
consumption; and I hope, in return, that you will
not withhold from me your name, and a statement
of your cure.

MY LAUSTRAL HAIR RESTORATIVE.

This universally approved and admired article,
free from ardent spirits, pungent essential oil, and
other destructive materials, cleans the hair ex-
peditiously, renders it beautifully bright, and imparts
to it the delicate fragrance of the flowers. Hair
washed with this Extract soon become pleasingly
soft and luxuriant in its growth, and it will po-
sitively bring in new hair on bald heads by its use;
and hair that has been made harsh, and is turning
gray or falling out, by the use of spirit or other im-
proper preparations, will soon be restored to its
natural color and brilliancy, by a few applications
of the Eau Lastrale.

It is a preservative against baldness, and an
infallible cure in all affections of the skin on the
head, as dandruff, and for preventing the falling
off of the hair and turning gray.

Evidence.—Nature is an inexhaustible mine in
which experience and study will always find room
to excavate; it is that source alone which pro-
duces all that man calls invention, and which he
would do better, perhaps, to name adaptation.
